## What is 'Dual Wheel Technology'?

Revolutionary implementation of  
'Dual Wheel technology' to  
Semi Polish along with Bruting  
of the diamond.

## 💎 BENEFITS

---

- Commits to execute 57 Facets.
- Decreases the entire manufacturing time cycle.
- Reduces Polish Production cost.
- Reduces Manpower.
- Can Perform Fancy Girdle & Blocking.
- Less damage in High pressure stones.
- Minimum operator errors due to automation
- Auto Lubrication System to minimize maintenance.

## BENEFITS

Single Operator can easily operate multiple machines.

---

User friendly operating program.

---

Assures maximum safety of diamonds through auto pressure adjustments with AI based innovative technology.

---

Intensified with IOT technology for generating various analysis reports & video recording of processes.

---

Multilingual online service support & notifications for user friendly experience.
